## Objective

Business Analytics graduate combining technical skills in python and machine learning with hands-on experience in statistical reporting. Highly capable of transforming raw data into useful insights, ensuring data quality, and spotting business opportunities through thorough market research.

## Experience

- Ghana Statistical Service** Nov 2025 - Dec 2025  
Directorate of Social Statistics Intern
  - ▶ Entered, cleaned, and presented datasets from state institutions, including BOG and NADMO.
  - ▶ Collaborated with other interns and NSS personnel to design quantitative reports and data visualizations aligned with the 17 Sustainable Development Goals.
- Ghana Statistical Service** Oct 2025 - Nov 2025  
Administrative Intern
  - ▶ Managed internal document routing for various directorates and the Government Statistician.
  - ▶ Coordinated meeting schedules and provided administrative support to management.
- Frontier Dominion LLC (USA)** Mar 2025 - May 2025  
Business Development and Research Intern
  - ▶ Conducted analyses of geopolitical trends, capital markets, and industry developments to inform strategic decisions.
  - ▶ Compiled data from primary and secondary sources to support ongoing research projects.
  - ▶ Drafted proposals and outreach materials for potential clients and business partners.
  - ▶ Collaborated with research teams to provide data analysis and administrative support.
- Ministry of Works and Housing** Feb 2024 - April 2024  
Procurement Intern
  - ▶ Utilized document management systems to organize and track departmental files.
  - ▶ Monitored operational metrics and reviewed internal records to assess ministry performance.
  - ▶ Set measurable project goals and tracked end results for departmental initiatives.
